ABOUT FIRAHS

FIRAHS

A UK entertainer wearing many hats — driven by one mission: to entertain, inspire and provide a platform for creativity.

Entertainment has been at the heart of FiraHS' journey since 2011. What began with organising and participating in talent shows — early events featuring artists such as Fuse ODG and Cashh — quickly evolved into a career spanning music, radio, journalism, production and digital media. He went on to manage artists and creatives across music, dance and modelling before discovering his own talent as a songwriter, producer and sound engineer in 2016 alongside collective These Dayz.

His broadcasting career began in 2020 with The Street Sessions on WhoaFM 90.4FM, followed by Breakfast and Drive Time on Westside Radio. As an entertainment journalist he has covered the UK's biggest festivals and interviewed internationally recognised artists — while producing and directing podcasts, series and music videos.
